Re: Low Power FM and K-Love Radio Station

I am so thankful there is currently a radio station in my area that I can listen to with my children without worrying about sex being brought up and discussed. I am constantly uplifted by the music on K-LOVE (90.7 Fm) and am grateful that in our free America that we can listen to Christian music. I have financially supported the K-LOVE station for several years because I think it has a positive affect on our community and my children.

If we were to lose K-LOVE and replace it with an LPFM broadcaster offering other programming, our community would be without an uplifting, encouraging music choice for our youth and teens. We are already bombarded with plenty of other choices, several rock, country, jazz, hard rock and talk radio stations. This is our only Christian rock station, please don't take it away!

The children and youth today are exposed to music with sexual lyrics, violent lyrics, drug and feel good lyrics. This is one place they can hear that life is not about ourselves. Help us keep a station that my children willingly listen to that encourages them and me.
